1 – 5 hours

“ I just wanted to pass on to you the great feedback we've had from the Beaulieu Challenge 100 event. Many people have said it's the best away day by far that they've been to, so I owe a massive thank you to you and the team for making it such a success ”

B&Q

CHALLENGE 100 – “*the working of the brain*”. With 100 tasks that have to be performed throughout the session this really is the ultimate challenge for your teams! Tasks break down into different sections and encompass out of the box creative tasks, team tasks, solution seeking tasks and manual building tasks. The tasks are graded according to their difficulty and teams are awarded “fun money” based on how successfully they complete the tasks. With so much to do, almost too much you could say, time management and excellent use of all the individual team members' skills are absolutely vital.

So how will your teams handle the challenge of getting a photo of a team member on top of the Eiffel tower or perhaps standing as a mannequin in a shop window for 3 minutes or even getting the whole team through a postcard? It can all be done and from any hotel anywhere in the UK! Be prepared for lots of ingenuity and real out of the box thinking on this one!
