

GAME SHOWS

GAME FOR A LAUGH

As per the very popular Generation Game show which combines table top action with stage shows where your guests are the stars of the show!

COMPANY (FAMILY) FORTUNES

This is where we all find out just what our surveys inform us!
Two teams at a time compete head to head to try and find the top answer.

THE PRICE IS RIGHT

Contestants Row is where individual items are flashed up on to the screen and teams must guess their cost.

COMPANY CATCH PHRASE

See it..SAY IT! It's an all in round where every team competes and may score points.
The quicker you are - the more you'll score. A picture of a well known phrase is projected piece by piece on to the screen for teams to guess the answer as the jigsaw is revealed.

STOCK EXCHANGE

Each team is given a set of share certificates and a large wad of money to start them off.
Their objective of course is to read the market correctly, buying and selling shares as time progresses with a view to amassing their fortune. Simple as that...or is it!!!

“ What a laugh! I never realised we had such talent in the company. Everyone thoroughly enjoyed the evening which was very well organised and hosted. Many thanks once again. ”
