

# MISSION IMPOSSIBLE

## WHAT CAN IT BE USED FOR?

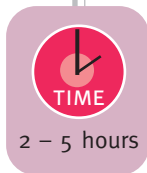

- Conference Ice Breaker
- Department Away Days
- Company Gathering
- Morale Booster
- Themed Product Launch

## WHY DO MISSION IMPOSSIBLE?

- Ideal for any group size
- Participative
- Hands On
- Everyone gets involved
- Inter team reaction yet competitive
- Physical and Cerebral challenges
- Works with many conference messages

## ALSO CONSIDER:

- Treasure Trail
- Green Machines
- Film Making
- Labyrinth
- Agent Provocateur

*Good morning Teams. It has recently come to light that hidden deep within the fabric of our society lies an individual with the capacity to cause great harm to our nation. MI5 have a short list of 15 suspects and have asked for our help to discover the identity of this “Mole”.....and so begins the briefing for the teams.*

Each team is given a dossier with 12 to 20 tasks in it, depending on the length of your event. The dossier is a very important part of the challenge containing encrypted clues, coded information and hidden ciphers, all of which is revealed as the mission proceeds. We will also be using taped messages, invisible writing and key codes!

The core Mission is based around a number of outdoor challenges that the teams must undertake such as River Crossing, Unstable Solutions, Safe Crack, GPS orienteering and Contaminated to name a few. This event combines tactical, team tasks with strategic, cerebral thinking to complete the overall challenge.

As each task is successfully completed the Special Agents will stamp their team packs as “Mission Accomplished”. The information they gather throughout the mission will allow the teams access to the “Special Agents Dossier” with the profiles and names of the 15 potential Moles. They will then have to use the information gathered previously to reveal the name that we are looking for. It's subtle, it's clever and teams need to think it through.. but is it IMPOSSIBLE?! If I told you that I would have to have you eliminated!!
