“ Olympiad was a spectacular success for our annual conference team building session. There was a great buzz in the room throughout the whole activity and everyone really enjoyed the various tasks. Kaleidoscope have proven to be a flexible, understanding and much-loved supplier. ”

B&Q

Ideally suited to a fast moving environment where you want lots of activity and team competition, Olympiad is a specially constructed challenge to suit meetings and conferences with an Olympic theme based on London 2012. It can also be used as a stand alone event for departmental or company away days.

With 80 tasks before them the teams have to choose which tasks they wish to tackle. There is a very distinctive flavour of London & the Olympics to this activity as well as photo missions and lots of initiative.

We provide quite a lot of the equipment required to tackle many of the tasks but not all and that is where the initiative comes in! Olympiad is a very flexible event to run that requires very little in the way of set up or venue requirements.

Teams compete for fun money and are awarded the appropriate amount as the task dictates by the event facilitators during the event. This activity is best suited to 2-3 hours but is flexible enough to be worked in to most timetables and can be done as an ice breaker in 45 minutes if required.

So if you fancy setting your teams the ultimate Olympic challenge such as:

- mini curling
- floppy javelin
- 5-aside mini ping pong
- photo of the team on the London Eye
- paint the London 2012 logo
- sing the Olympic anthem
- perform a Morris dance

as well as a plethora of other tasks, conundrums, quizzes and photo challenges.....then OLYMPIAD is the activity for you.
