

VIDEO HORSE RACING

A Horse Racing Evening provides great entertainment for your corporate function and is flexible enough to suit most venues. The guests will be given an equal amount of “fun” money to gamble with and a Race Card listing the horses in each race.

The races are shown on a large screen in a centrally visible position while an enthusiastic and exuberant Bookie will commentate on the races and 'gee' everybody up into parting with their money. Bookie's runners will wander between the guests taking their bets and placing them at the Tote desks around the room. Pay out desks will be set up at the front of the room to create the racing atmosphere.

The form of each horse is described at the start of each race to give the 'punters' a chance to weigh up the odds and make an educated bet, every opportunity to create an authentic feel will be taken and guests will feel they are really having a night at the races.

At the end of the evening all the money is banked and totalled. Prizes can be awarded to the team or individual who has made the most money. We provide:

- 7 x 5 screen set surround plus PA system and projector
- Selection of races
- Winners Rosettes
- Bookie and bookie's runners

“ Hi Mike, the event went really well, Chris and Maria were great! Everyone really got into to it, we would definitely do a race night again. ”
